NIFL ENERGY MINUTE – SEAL WINDOWS AND DOORS

AUBURN, Ind. – In an effort to help customers manage winter heating bills, Northern Indiana Fuel & Light (NIFL) today releases the first in a series of ongoing public service announcements called “Energy Minute” to print and broadcast media outlets across NIFL’s service area. These tips are aimed to help customers manage their energy bills this winter heating season by using energy wisely.

Install or Seal Storm Windows and Doors. Drafts entering your home around leaky windows and doors steal precious heat. Seal out the drafts with storm doors and windows. Replace missing caulking, worn weather-stripping or broken glass that lets cold air in. For these and other tips on how to use energy wisely this winter heating season, log onto www.niflco.com.
